

Flexible Mounting and Aiming

FlexiMount

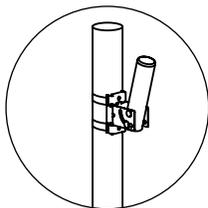

The Mimosa FlexiMount pole and surface mount accessory accommodates both vertical and horizontal pole mounting applications, as well as basic flat wall mounting where minimizing the distance of the radio relative to the wall is important.

- **Weight:**
0.43 kg (15.2 oz)
- **Mounting Base:**
45 mm (1.77") x 80 mm (3.15")
- **Pole Length:**
100 mm (3.94")
- **Pole Outside Diameter:**
38 mm (1.5")
- **Mounting Options:**
Pole mount with two pipe clamp or surface mount with two screw hole points
- **Assembly:**
Pre-assembled with a white powder coated finish;
Mounting screws and pipe/hose clamps not included

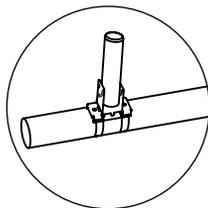

Vertical Poles

The FlexiMount comes assembled, ready for vertical pole configurations, using the indicated pipe clamp slots in the diagram above.

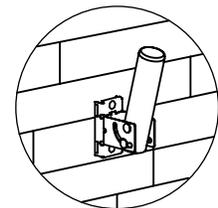

Angled and Flat Poles

The FlexiMount can be mounted in any orientation on angled and flat poles. To pivot the articulation direction, rotate the mounting base in 90° constraints to achieve the desired orientation.

Flat Surfaces

The FlexiMount includes two (2) convenient mounting screw hole points, allowing mounting to any vertical, sloped or horizontal surface.

Mimosa Networks, a division of Airspan, is the global technology leader in wireless broadband solutions, enabling service providers to connect dense urban and hard-to-reach rural homes at a fraction of the cost of fiber. Mimosa Networks was acquired in 2018 by Airspan, the leading vendor of 4G/5G LTE small cells and backhaul technologies.
