

Wisnetworks Wireless Smart MIMO Antenna

WIS-ANT

WiD™

TDMA protocol

5 GHz

2.4 GHz

Product Overview

The WIS-AN series is a family of Wisnetworks smart outdoor antenna operating in the 2.4GHz and 5GHz bands. It is fully compatible with WiD TDMA protocol and IEEE 802.11a/b/g/n and could work seamlessly with Wisnetworks base station such as WIS-S2300 and WIS-S5300, WIS-L5800N. It is also fully compatible with current 2*2 MIMO devices and would help the wireless ISPs and SIs build high performance and cost-effective wireless networks.

Features and Benefits

- Seamlessly work with Wisnetworks S-series base station
- Incredible wireless transmission range
- Compatible with WiD TDMA which greatly improves the network scalability
- Provide outdoor weatherproof N-type connectors
- Support legacy 2*2 MIMO 802.11n and 802.11a/b/g
- Ideal for wireless coverage and point to point or point to multi-point connection

Product Series:

Smart Sector Antenna Series

Wisnetworks smart sector antenna series is including both 2.4GHz and 5GHz sector antenna with different antenna gain and sector degree. It is highly compact to work with WIS-S2300 and WIS-S5300 wireless base station, and 3-4 of those combination can make a base station site and provide incredibly long range wireless coverage and PtMP connections by any direction.

Wisnetworks Wireless Smart MIMO Antenna

Smart Dish Antenna Series

Wisnetworks smart dish antenna series is for 5GHz only with different antenna gain. It is also highly compact to work with WIS-S5300 wireless base station, and a pair of those combination can be used as ultra-long distance wireless bridge, providing more than 50km wireless point-to-point connection.

5GHz 34dBi Φ 1250mm

WIS-AND5834

5GHz 32dBi Φ 950mm

WIS-AND5832

5GHz 29dBi Φ 600mm

WIS-AND5829

Smart Grid Antenna Series

Wisnetworks smart grid antenna series is for 5GHz only with different antenna gain. It is also highly compact to work with WIS-S5300/WIS-L5800N wireless base station, and a pair of those combination can be used as ultra-long distance wireless bridge, providing more than 30km wireless point-to-point connection with best wind resistance ability.

Wisnetworks Wireless Smart MIMO Antenna

5GHz 29dBi Φ 600mm

WIS-ANG5829

5GHz 24dBi Φ 400mm

WIS-ANG5824

Smart Omni Antenna Series

Wisnetworks smart omni-directional antenna series is including both 2.4GHz and 5GHz omni with up to 12dBi antenna gain. It is fully compatible with WIS-S2300 and WIS-S5300 wireless base station. It can be used for wireless hotspot or wireless PtMP connections.
